PRODUCT DATA SHEET

CHEM PRO 2014

PRINCIPAL USES

CPL 2014 is a liquid boiler feedwater treatment formulated to provide the necessary synthetic and natural organic polymers, sludge modifying agents, and sequestrants for your boiler system. The synergistic blend of this product will minimize hardness and metal deposition typically encountered in steam boiler operation.

GENERAL DESCRIPTION

APPEARANCE:	Dark brown liquid
ODOR:	Organic odor
PRODUCT pH:	6.0-8.0
DENSITY (lbs/gal):	8.5
FLASH POINT:	Not Flammable

DOSAGE

Exact dosage depends upon feed water quality, operating conditions and the condition of boiler prior to initial use. Specific use instructions will be provided by your Chem Pro Representative after a complete chemical analysis of the feedwater and survey of the boiler operating conditions are made.

FEEDING

Chem Pro 2014 may be fed neat from shipping container or diluted to any convenient concentration with softened water or condensate and fed from stainless steel or plastic dilution tanks. The dilution may be injected through metering pumps to the boiler, or to a point in the feedwater system recommended by your Chem Pro Representative.

HANDLING

The user should wear protective gloves and chemical safety goggles plus shield. Follow guidelines of Material Safety Data Sheets.

SHIPPING AND STORAGE

Chem Pro 2014 is packaged in 5 gallon pails, 30 and 55 gallon drums. Product should be stored in cool, dry place.
