PRODUCT DATA SHEET

CHEM PRO 2096

PRINCIPAL USES

Chem Pro 2096 is a liquid phosphate boiler treatment. It combines special sludge dispersing characteristics of a phosphate, polymer, and oxygen corrosion inhibitor. The uniquely proportioned polyphosphate polymeric blend can be used with soft or hard water make up.

The ingredients contained in Chem Pro 2096 boiler water treatment are in accordance with Title 21, Section 173.310, of the Code of Federal Regulations for boiler water additives which may be safely used in the preparation of steam that will contact food. This product is USDA and FDA approved.

GENERAL DESCRIPTION

APPEARANCE:	Clear colorless liquid.
ODOR:	Very little odor
PRODUCT pH:	8.5-9.0
DENSITY (lbs/gal):	9.5
FLASH POINT:	Not Flammable

DOSAGE

Proper Chem Pro 2096 treatment levels depend on many factors specific to a given system. The product should be used in accordance with Chem Pro Laboratory, Inc. recommendations and procedures for a particular system.

FEEDING

Can be applied neat or diluted with soft water in a chemical tank. Use a controlled metering injection pump. Chem Pro 2096 is a complete treatment, or it can be supplemented with other boiler water treatment in the same drum or separately, per Chem Pro recommendations.

HANDLING

Read Safety Data Sheet (SDS) before using. This material is an alkaline liquid. Wear rubber gloves and splash proof goggles. In case of contact with skin, wash immediately with plenty of water. In case of contact with eyes, flush promptly for at least 15 minutes. In case of eye contact or ingestion, contact physician immediately.

SHIPPING AND STORAGE

Chem Pro 2096 is supplied in 5 gallon pails, and 30 gallon and 55 gallon drums. Store in safe, dry area away from heat or freezing.
